Emergency Contact (in the morning of examination of specialized subject)
Department of Information & Communication Engineering:
Office of the department: 03-5841-6712
Department Admission Office: 03-5841-6669

Objectives of the Department

The mission of the Department of Information and Communication Engineering is to innovate and establish key principles and technologies in computing, communication, and human-computer interaction that empower and shape the future of our increasingly connected and computerized society in a manner that harmonizes with the human being. To this end, we offer education in master's and doctoral programs to train students enthusiastically pursuing the field, with the hope of making a significant contribution to society's better future and to play leading roles in the next generation, based on their solid understanding of both information and communication technologies and our information society.

Keywords: Processor architecture, High-Performance Computing, Parallel Processing, Large-scale Data Processing, Cloud Computing, Mobile Computing, IoT, Natural Language Processing, Computer Vision, Image Processing, Artificial Intelligence, Meta-heuristics, Machine Learning, Quantum computing, Multimedia, Human Interface, Interaction, Virtual Reality, Game AI, Information Security, Personal Information Protection Technology, Intelligent Transportation Systems, Evolutionary Computing, Artificial Life, Complex Systems.

In the case of conflict, the Japanese version shall prevail and be conclusive.

1. Schedules and Venues

1.1. Master's Program, Summer Exam

Document screening

The submitted documents screen applicants. Refer to the graduate school's admission guide for the acceptance notification regarding the document screening.

Subsequently, applicants who passed the document screening are subject to written examinations and oral examinations. Examination admission cards will be sent to all candidates, but only those whose examination numbers are listed on the Graduate School of Information Science and Technology website are eligible to take the written and oral examinations.

Written Examination and Oral Examination

The written examination will be held at the venue below.

For the written examination of mathematics, please refer to the admission guide of the graduate school.

The oral examination will be conducted online, and the details will be announced separately.

Date	Time	Venue	Subject	Remarks
August 20 (Thu.) 2026	Refer to the graduate school's admission guide.		Mathematics	See sec. 2.4.
August 24 (Mon.) 2026	10:00~12:30	Engineering Building #2, 4th floor, lecture room 241	Specialized subjects	See sec. 2.5.
August 31 (Mon.) 2026	10:00~14:00	Online	Oral Exam	See sec. 3.3. Applicants for the oral exam will be announced on August 29 (Sat.) on the ICE Entrance Examination Guide website.

1.2. Doctoral Program, Summer Exam

Written and Oral Examinations

The written examination will be held at the venue below.

The oral examination will be conducted online, and the details will be announced separately.

This document is a translation from the official Japanese version.

In the case of conflict, the Japanese version shall prevail and be conclusive.

Date	Time	Venue	Subject	Remarks
August 24 (Mon.) 2026	10:00~12:30	Engineering Building #2, 4th floor, lecture room 241	Specialized subjects	See sec. 2.5.
August 27 (Thu.) 2026	9:00~	Online	Oral Exam	See sec. 4.4.

1.3. Doctoral Program, Winter Exam

Document Screening

Document screening will be conducted based on the submitted documents. Your eligibility for the Oral Examinations will be announced on the following website from 15:00, Friday, December 18th, 2026 (JST) for five days. The announcement will be made by using the examinee number that is found on the examination admission card delivered in advance.

https://www.i.u-tokyo.ac.jp/edu/course/ice/admission_e.shtml

Oral Examinations

The written examinations will not be held.

The oral examination will be conducted online, and the details will be announced separately.

Date	Time	Venue	Subject	Remarks
January 19(Tue.) 2027	9:00~	Online	Oral Exam	See sec. 4.4.

This document is a translation from the official Japanese version.

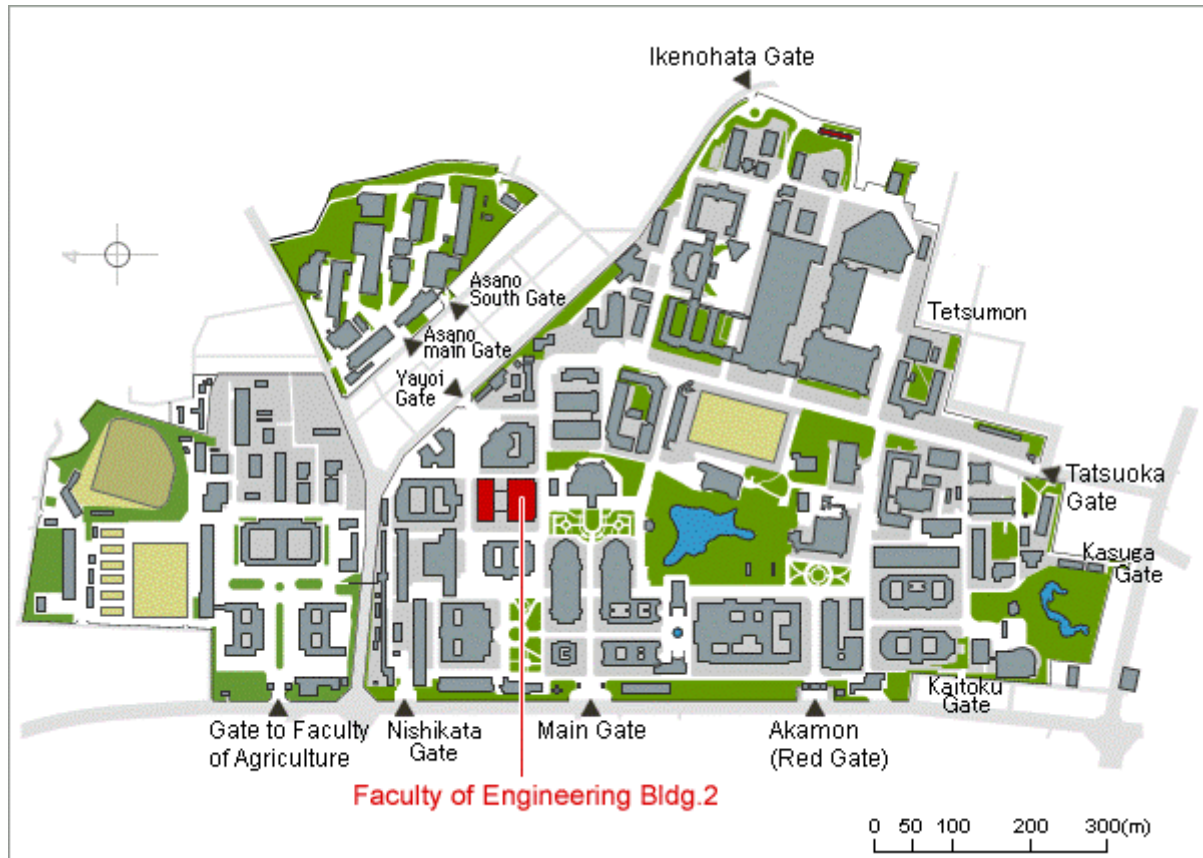

In the case of conflict, the Japanese version shall prevail and be conclusive.

1.4. Map of Examination Venue

The University of Tokyo, Hongo Campus
(7-3-1 Hongo Bunkyo-ku, Tokyo 113-8656)

Department of Information and Communication Engineering

Graduate School of Information Science and Technology

Toei Subways and Tokyo Metro:

Hongo-sanchome (Marunouchi Line M21 or Oedo Line E08), Nezu (Chiyoda Line C14),
Todai Mae (Namboku Line N12), or Kasuga (Mita Line I12 or Oedo Line E07)

Toei Bus:

“Todai Seimon Mae” (東大正門前) on route 東 43 or 茶 51; or “Todai Konai” (東大構内) on route 学 01 or 学 07

The details of the general education subject (mathematics) examination are provided in the graduate school’s admission guide and its accompanying guideline for on-site examination. Instructions for the specialized subject examination conducted by the department are provided in this admission guide.

This document is a translation from the official Japanese version.
In the case of conflict, the Japanese version shall prevail and be conclusive.

2. General Notices

This section describes general rules that apply to the entrance exams of both master's and doctoral programs.

2.1. Application Due and Procedures

See "Section 6. Application Procedures" in the Admission Guide of the Graduate School of Information Science and Technology.

If you have any questions about this guide, please consult the Department Admission Office shown on the cover page. This is not the same as the Admission Office of the Graduate School of Information Science and Technology, the address for submitting the application documents.

2.2. Notices

Please be sure to check the ICE (Department of Information & Communication Engineering) Entrance Examination Guide website for the written and oral examinations, as they are subject to change.

2.3. English Evaluation

Your English skill is evaluated by your TOEFL score reported via an Official Score Report. For details, see "Guidelines for Submission of TOEFL Scores (for AY2027 Entrance Examinations)," accompanying the admission guide of the graduate school.

2.4. Mathematics

The mathematics examination is conducted only in the summer entrance examination for the master's course. It is not conducted for the doctoral course.

For the written examination of mathematics, refer to the admission guide of the graduate school.

2.5. Specialized Subjects

Five problems are given from the following fields, out of which you choose and answer three in 2.5 hours: electrical /electronic circuits, computer architecture, digital circuits, algorithms/data structures, optimization/machine learning, telecommunication, signal processing, and information theory.

2.6. Recommendation Letter

Regarding the submission method of the recommendation letters, see 'Online Application Procedures-5. Submission of Recommendation Letters' on the admission website of our Graduate School at https://www.i.u-tokyo.ac.jp/edu/entra/entra_e.shtml

Use the form of the recommendation letter prescribed in this document for the application to the master's program. The form of the recommendation letter for the doctoral course applicant is not prescribed.

A person who is familiar with the applicant's past academic, research, and work performance (not limited to the applicant's academic advisor) may write and submit the recommendation letter. The applicant should give the form to the recommender. The letter of recommendation must bear the recommender's signature or seal.

The due dates for the recommendation letter are June 11, 2026, for the summer exam and November 24, 2026, for the winter exam.

This document is a translation from the official Japanese version.

In the case of conflict, the Japanese version shall prevail and be conclusive.

3. Master's Entrance Exam

3.1. Preference Investigation for Prospective Professors

You are recommended to contact at least one prospective advisor before your application.

Make sure to enter **ten professor names** in the WEB Application System. If up to 10 names are not entered, any faculty member will be considered acceptable. Changes in the order of preference after submission are not permitted.

- **Field 1 for Department-Specific Information** of the WEB Application System:

When there is no significant difference in the ranks (i.e., multiple professors tie in your preference), the numbers of the same ranks should be described clearly. For example, if it is difficult to rank the third to the tenth, write as "Ranks 3 through 10 are the same." If you can rank all the preferences, there is **no need to enter anything**.

- **Field 2 for Department-Specific Information** of the WEB Application System:

Select up to three research fields from the following items. **Leave it blank** if you have no specific preference.

- Artificial intelligence, Meta-heuristics, Image processing, Natural language processing, Processor architecture, High-performance computing, Quantum Computing, Communication/Networking, IoT, Database, User interface, VR/AR, Information security.

3.2. Submission of Research Plan

Describe your research plan in the Master's Program by using the research plan form prescribed in this document.

Send it with the application form. Follow the instructions described in the form.

3.3. Oral Exam

In the summer entrance exam, only applicants who passed the prior paper screening based on submitted application documents, mathematics, and specialized subjects are eligible for the oral exam. In the winter entrance exam, only applicants who passed prior paper screening based on submitted application documents and specialized subjects are eligible for the oral exam. Applicants for the oral exam will be posted on the ICE Entrance Examination Guide website by 3:00 p.m. on August 29, 2026 (Sat.) for the Summer Examination. Details will be announced after the exam for specialized subjects. You will be interviewed about the written exams, current research topic, fields of interest, etc.

3.4. Cautions

Only the examinees who passed the paper screening based on submitted application documents are eligible for the Written and Oral Examinations. Applicants must check the results of the document screening on the website and confirm that they have passed the examination before coming to the examination site.

The winter entrance examination for the master's program will not be held.

This document is a translation from the official Japanese version.

In the case of conflict, the Japanese version shall prevail and be conclusive.

4. Doctoral Entrance Exam

4.1. Communication to Prospective Advisors

Communicate with one prospective advisor, **obtain acceptance** to the laboratory, and discuss your research plan prior to your application. Enter the name of your prospective supervisor in the field “Supervising Professor of your Choice” of the Web application system.

4.2. Required Documents

Include the following in your application.

(i) Research Plan

Describe your research plan in the Doctoral Program by using the research plan form prescribed in this document. Follow the instructions described in the form.

(ii) Recommendation Letter and List of Achievements

Submit a list of achievements (a list of significant publications and conference presentations). Submit a letter of recommendation (any format) from your master’s course advisor (or someone familiar with your research, etc.). However, these submissions may be exempted in some cases; see sec. 4.3 for the conditions. The recommendation form should be filled out by the recommender, and the PDF file should be uploaded to the designated site. The upload site will be announced by the graduate school separately.

(iii) Recommendation Letter by the Applicant’s Manager

Suppose you are a working applicant and wish to enter the University while still employed. In that case, you must submit a letter of recommendation (in an arbitrary format) written by one of your managers instead of the recommendation letter (ii). It is necessary even if the exemption rule in sec. 4.3 is applicable.

(iv) Undergraduate Academic Transcript

Upload a copy of the original verifying the applicant’s undergraduate performances (including liberal arts courses) to the WEB Application System. If you have multiple certificates, save them together as one PDF file. Japanese or English translation is required if it is written in a language other than Japanese or English. For graduates of the Advanced Course, KOSEN (Colleges of Technology), upload the transcripts of both the Advanced Course and KOSEN.

4.3. Exemption of TOEFL, Specialized Subjects, Recommendation Letter, List of Achievements, and Undergraduate Academic Transcript

- TOEFL score (sec. 2.3), specialized subjects examination (sec. 2.5), a letter of recommendation written by your master’s thesis advisor, a list of achievements, and undergraduate academic transcript (sec. 4.2) are exempted if you graduated (or are anticipated to graduate in this academic year) from the master’s program of any of the following departments: Department of Electrical Engineering and Information Systems, Department of Electrical Engineering, Department of Electronic Engineering, and Department of Information and Communication Engineering, in the Graduate School of Engineering, the University of Tokyo; Department of Frontier Informatics in Graduate School of Frontier Sciences, the University of Tokyo; and any Department in the Graduate School of Information Science and Technology, the University of Tokyo.
- They may be exempted if you graduated (or are anticipated to graduate in this academic year) from the master’s program of the following departments: Department of Advanced Energy in Graduate School of Frontier Sciences, the University of Tokyo; Graduate School of Interdisciplinary Information Studies, the University of Tokyo; and Department of Information Engineering in Graduate School of Engineering, the University of Tokyo. Ask the

This document is a translation from the official Japanese version.

In the case of conflict, the Japanese version shall prevail and be conclusive.

Department Admission Office for your eligibility.

4.4. Oral Exam

You should present your master's thesis research (or similar activity) and your research plan for doctoral studies. You are required to prepare slides for your presentation. The time available will be announced before your presentation, and it is typically about 15 minutes. After your presentation, questions will be asked about the presentation.

This document is a translation from the official Japanese version.
In the case of conflict, the Japanese version shall prevail and be conclusive.

Research Plan: page 1

1. Research theme (title); 2. Applicant's name; and 3. Statement about the purpose of admission

Describe "1. Research theme," "2. Applicant's name," and "3. Statement about the purpose of admission" concisely within one A4 page in Japanese or English. Refer to "Admission Guide" for the description.

Note:

1. Use letters of 11-point or larger font sizes.
2. The title and instructions on the upper part of each page must be left intact.
3. Do not exceed the maximum number of pages specified in the instructions. Do not delete any pages, even if they are blank.

1. Research theme

2. Applicant's name

3. Statement about the purpose of admission

Sample

4. Research plan; 5. References; and 6. Other special notes

Describe “4. Research plan in the Master’s/Doctoral Program,” “5. References,” and “6. Other special notes” concisely within three A4 pages in Japanese or English. Refer to “Admission Guide” for the description.

“4. Research plan in the Master’s/Doctoral Program” must present the research that an applicant desires to work on at the graduate school; the (Summary) part must summarize the research briefly and then the (Main text) part must specifically and clearly present (1) Research background and objectives; (2) Research vision (i.e., what will be elucidated, and to what extent and how will it be pursued); (3) Trends related to the research field and the positioning of the research; and (4) Other remarks (e.g., preparation status towards achievement, and the circumstances leading to conception of the research).

“5. References” must list documents serving useful references, and documents cited in “4. Research plan in the Master’s Program.”

“6. Other special notes” must present other items such as research achievements, awards, certifications related to the research, and skills that are useful to evaluate an applicant.

Note:

1. Use letters of 11-point or larger font sizes.
2. The title and instructions on the upper part of each page must be left intact.
3. Do not exceed the maximum number of pages specified in the instructions. Do not delete any pages even if they are blank.
4. Present the source documents in “5. References” in citing any sentences, figures, or tables presented in papers or articles. (The research plan may be deemed to be invalid if it contains any sentences, figures, or tables presented in papers or articles without presenting their sources.)
5. Each document listed in “5. References” must be referred by the (Main text) part in “4. Research plan in the Master’s Program.”

4. Research plan

(Summary)

(Main text)

(1) Research background and objectives

(2) Research vision

(3) Trends related to the research field and the positioning of the research

(4) Other remarks

5. References
