AY2023 Entrance Examinations
Graduate School of Information Science and Technology, the University of Tokyo
Transfer Application for the Online Written Examinations

If you hope to be transferred to the online versions of the written examinations, i.e., the general education subjects (mathematics or programming) and other written examinations conducted by each department, due to difficulty in taking the examinations onsite, submit this form at the timing of the application. Applicants will be notified whether or not they are allowed to be transferred with their Examination Admission Cards.　Once permitted, every written examination you should take will be transferred to the online version whenever it is available. (You cannot choose on-site versions partially.)

In the 'Zoom Account' part below, fill in the name of the Zoom Account that is supposed to be used at the online examinations.　Those who do not have a Zoom account need to create one.　If you have difficulty creating an account for any reason, explain why in the "Zoom Account" box below.

There are some notes and restrictions about the online examinations which differ from the on-site ones.　Carefully read the "Notes on the Difference between Online and On-site Examinations" before applying for the transfer.

Department	
Course	□master　□doctor　□doctor[special selection for professionals]
Examinee's Name (in Kanji)	
Examinee's Name (in Roman letters)	
E-mail Address	
Mobile Phone	
Zoom Account	

Reasons for applying:

Please select applicable answer first and provide specific reasons in the blank below 'Details of the reason.'

□　Because I live far from Tokyo, it is difficult to access the on-site venue.

□　Because of health problems, I feel anxious visiting the on-site venue.

□　Because some incident has happened right before the examination dates, which prevents me from taking the on-site examinations.

□　Other (　　　　　　　　　　　　　　　　　　　　　　　　　　　　　)

Details of the reason (all applicants must fill):

Date of filling in this form	(year/month/date)

*1 : For those who plan to take examinations on site, there remains the possibility that urgent transfers to the online examinations will be instructed, depending on the examinees' health conditions. In such a case, refer to the instructions for the on-site examinations, and follow the instructions there.

*2 : The personal information described above will only be used to judge whether or not the transfer to the online examinations should be allowed, and it will only be shared among the persons who are in charge of making that judgement. This personal information will be destroyed after all the procedures for the entrance examinations are completed.
